

Kia ora e te whānau, with the increasing numbers of people testing positive for Covid we want whānau to be aware that we are prepared for when someone in our school community tests positive for Covid. We will send an alert via our Skool Loop App and send a Newsletter by email to keep you fully informed. We will also post updates under the Covid Update tab in Panui on our school website.

We have letters prepared ready to send out to inform staff and parents of the following:

1. If a child or staff member at kura has tested positive.
2. If your child or a staff member has come into close contact at kura with someone who has tested positive.

We are aware parents may be wondering what to do in some situations. The diagram below has been prepared to try and provide a brief but clear outline of a few situations – with an outline of what needs to happen. We hope you find it useful.

Thank you for your support in helping us to keep the tamariki at our kura safe in these challenging times of Covid.

If your child is unwell please keep them at home. For more information about symptoms of Covid go to [covid19.govt.nz/health-and-wellbeing/about-covid-19/covid-19-symptoms/](https://www.govt.nz/health-and-wellbeing/about-covid-19/covid-19-symptoms/)
